

Have you ever been to the Pour House? It's in Shrewsbury near the Ford shop. You should go there because they take covid seriously, the food is good and they have TVs with awesome sports!

The first reason you should go to the Pour House is that they keep people safe from covid. There is a button to easily get inside. So you don't get germs from the door. And it is fun too. The wait is the same but you wait in the car to keep you safe.

The second reason you should go to the Pour House is that When you take a seat you can order ANYTHING you want.

suggest you get the burger with a gluten free bun. The appetizers are so good too. I love the chips. My sister gets the onion soup, and my mom's favorite is potato skins.

The third reason you should eat at the Pour House is there are TVs on the wall. You get to watch TV while you eat. They play football, hockey and baseball. If you are lucky you can see your favorite team win.

As you see it the best. The PourHouse is delicious, they are safe with covid, and fun!
